# Emerging Technologies

<http://bit.ly/mec11-emergingtechnology>

- Respond above to what you view is an emerging technologies

# Emerging Technologies

- Intel Content

# Emerging Technologies

- Online Learning
- Blended Learning
- 1:1 Instructional Environments
- Mobile Learning

# Theory of Action

## Benefit of Technology

- Deepens content learning
- Allows for varied instructional strategies
- Promotes 21st century skills
- Fosters digital citizenship
- Enables real-world connections
- Facilitates global citizenship
- Supports student-centered learning
- Prepares students for the future

# Online Learning

- **Fully online**
- **Blended Learning**

**Who has fully online programs?**

**Who has blended programs?**

# Statistics

- 75% of schools nationwide had a least one student enrolled in a fully online or hybrid class
- 57% of public secondary schools offer online learning options
- Over 50% of 3-5<sup>th</sup> graders indicated a desire to take an online class

# Online Learning

- Discuss with your neighbor:
  1. How could online or blended programs help student achievement?
  2. What are some of the challenges?

# Online Learning Research

- Students who took all or part of an online course did better than F2F
- Effective regardless of content area or type of learner
- Achievement was greatest when activities that prompted reflection were included

# Standards for Online Programs

- Teaching & Learning
- Support
- Evaluation
  - Formative (program evaluation)
  - Summative (outcome-based)

# Hybrid Learning

- 3 examples
- 9<sup>th</sup> Grade English Teacher
- 6<sup>th</sup> grade teacher (Math)
- Washington Teacher of the Year

# 1:1 Learning

- Does anyone experience in 1:1 learning schools?
- Would you share some of your experiences?

# 1:1 Learning

- Support anytime/anywhere learning

Jeff Mao, director of technology at the  
Maine Department of Education:

**“One-to-one learning is not a tech  
project”**

# Teacher Roles

- Conventional Instruction, where teachers are in control of student learning, is not compatible with one-to-one learning environments.
- Both student and teacher roles must change if the benefits of one-to-one learning can be realized.

# Student Roles

- Knowledge Producers
- Collaborators
- Self-directed learners

# Student-Teacher Roles

- Discuss with your neighbor what changes to your current teacher/student roles may need to occur

# Mobile Devices

- Nearly 1/3 of 6-8<sup>th</sup> grade students have cell phones with Internet Access
- 75% of 6-8<sup>th</sup> grade students have access to an iPod Touch-like device

# Mobile Devices Scenarios

- Pair up with 2 partners next to you and read the 1 or 2 of the following scenarios:
- Discuss your thoughts about those scenarios?

# Questions?
